Central Arkansas Water personnel do not perform Backflow Assembly tests. We do however provide a list of businesses with active certified testers in the local area as a service to customers. Central Arkansas Water reserves the right to exclude any tester from this list based on past performance. You may also find a complete listing of certified testers on Central Arkansas Water's web site, carkw.com. Central Arkansas Water is not associated with Assembly Tester Technicians, therefore; can not regulate the fees charged and derives no monetary benefit from these fees. It is highly recommended that you contact several Assembly Tester Technicians and compare prices before scheduling a test. Should you have questions about this listing of or the utility's Cross-Connection Control Program requirements, please contact the Cross-Connection department at 501-210-4960 or cccp@carkw.com testerlist PROD 2024 .doc.

IMPORTANT INFORMATION

Regarding the Inspection and Testing of

FIRE PROTECTION SYSTEMS

Within

Central Arkansas Water's Service Area

If you do not know the name of your Fire Service Provider, it may be possible to check the Backflow Assembly. Fire Service Providers attach a tag or nameplate with their name and last test date to the Assembly.

Only those personnel licensed by the State of Arkansas Fire Protection Licensing Board and hold current Assembly Tester Technician (ATT) certification may test Fire Service Assemblies in the Central Arkansas Water service area.

Local Fire Service Providers:

A&A Fire and Safety	501-834-5353
American Fire Protection Group	501-492-8550
